Program Overview

Interior Essentials provides educational programming designed to support housing stability, informed decision-making, and long-term preparedness. Programs focus on prevention, planning, and confidence around housing-related responsibilities and choices.

Programs are delivered digitally and may supplement existing resident services, housing education, or stability initiatives.

Delivery Options

Housing & Property partners may select one or more of the following models:

1. Partner-Sponsored Access (Bulk Enrollment)

The partner organization purchases program access in bulk, allowing eligible participants to enroll at no cost. This model is commonly used by: - Housing authorities - Affordable housing organizations - Public or nonprofit housing programs - Grant-funded resident support initiatives

2. Discounted Participant Access

Participants enroll individually at a reduced partner rate provided through a private access link or enrollment code.

3. Hybrid Model

The partner subsidizes a portion of the program cost, with participants paying the remaining balance.

Eligibility Requirements

Participants qualify for partner access if they are: - Current residents, tenants, or clients served by the partner organization - Enrolled through a partner-approved referral or registration process - Accessing the program for personal educational use

Partners agree to distribute access only to eligible participants aligned with housing support objectives.
